

How to Save and Use BrandBox Videos

STEP 1: After successfully downloading your desired video from BrandBox, navigate to your **downloads folder**.

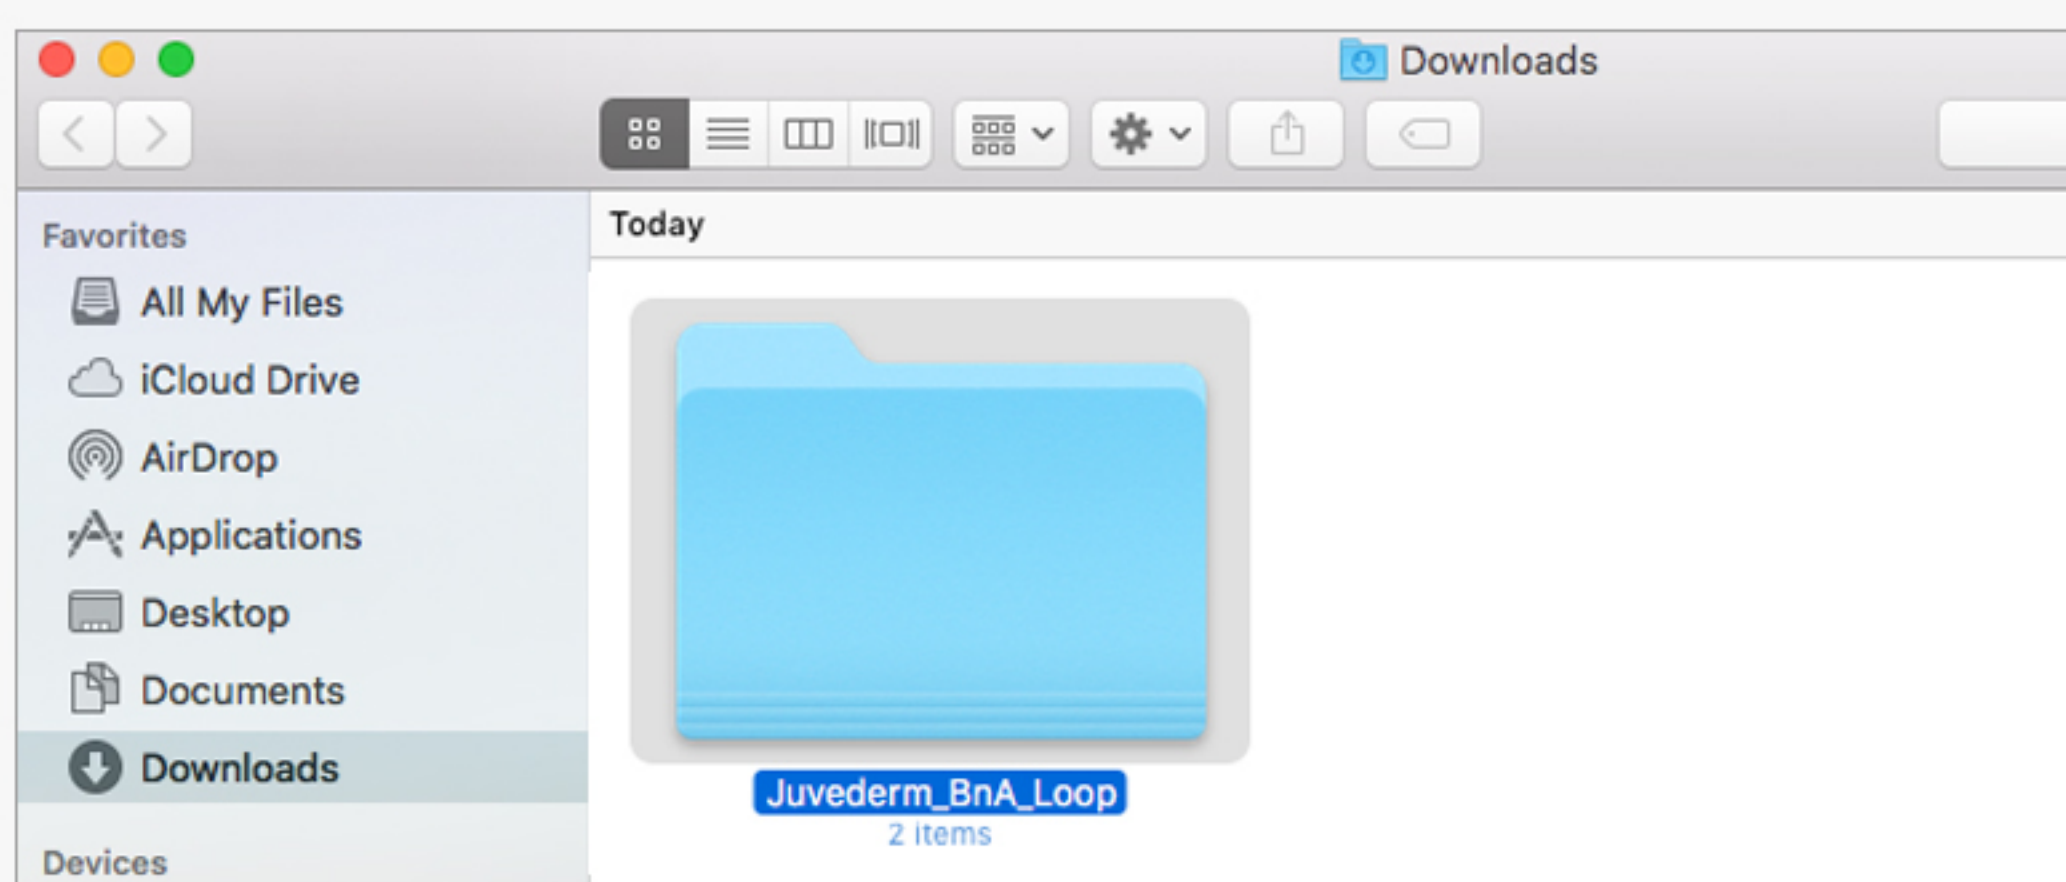

Mac

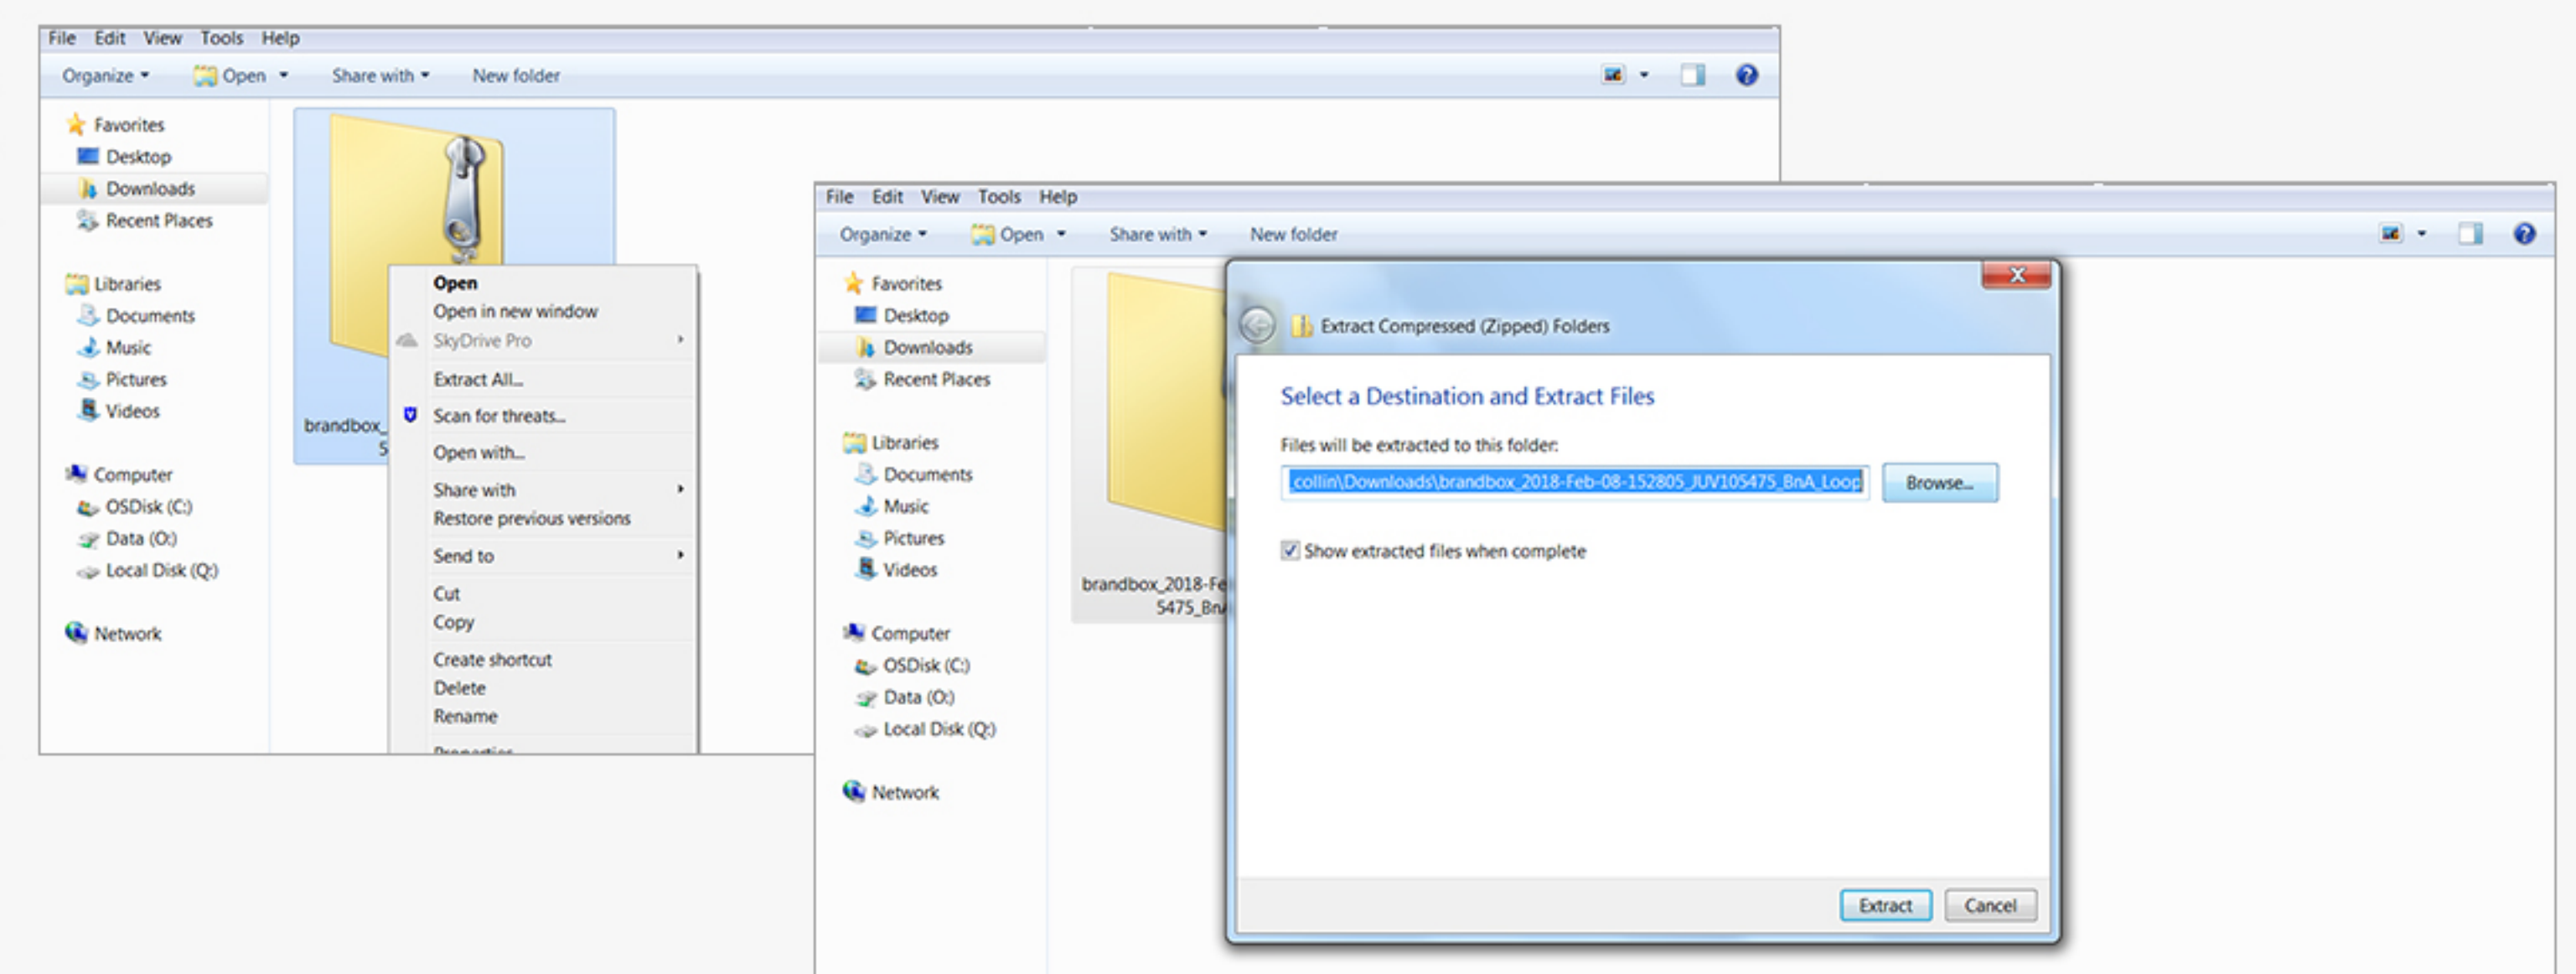

PC

- STEP 2:**
- On a **Mac**, simply double-click the zip file to extract the contents. Then copy (use command key + C) the new folder and save it to a destination of your choice where it will be easily accessible.
 - On a **PC**, right-click the zip file and select “Extract All” from the menu. Click “Browse” to choose a destination to save the files, then click “Extract” to extract the contents.

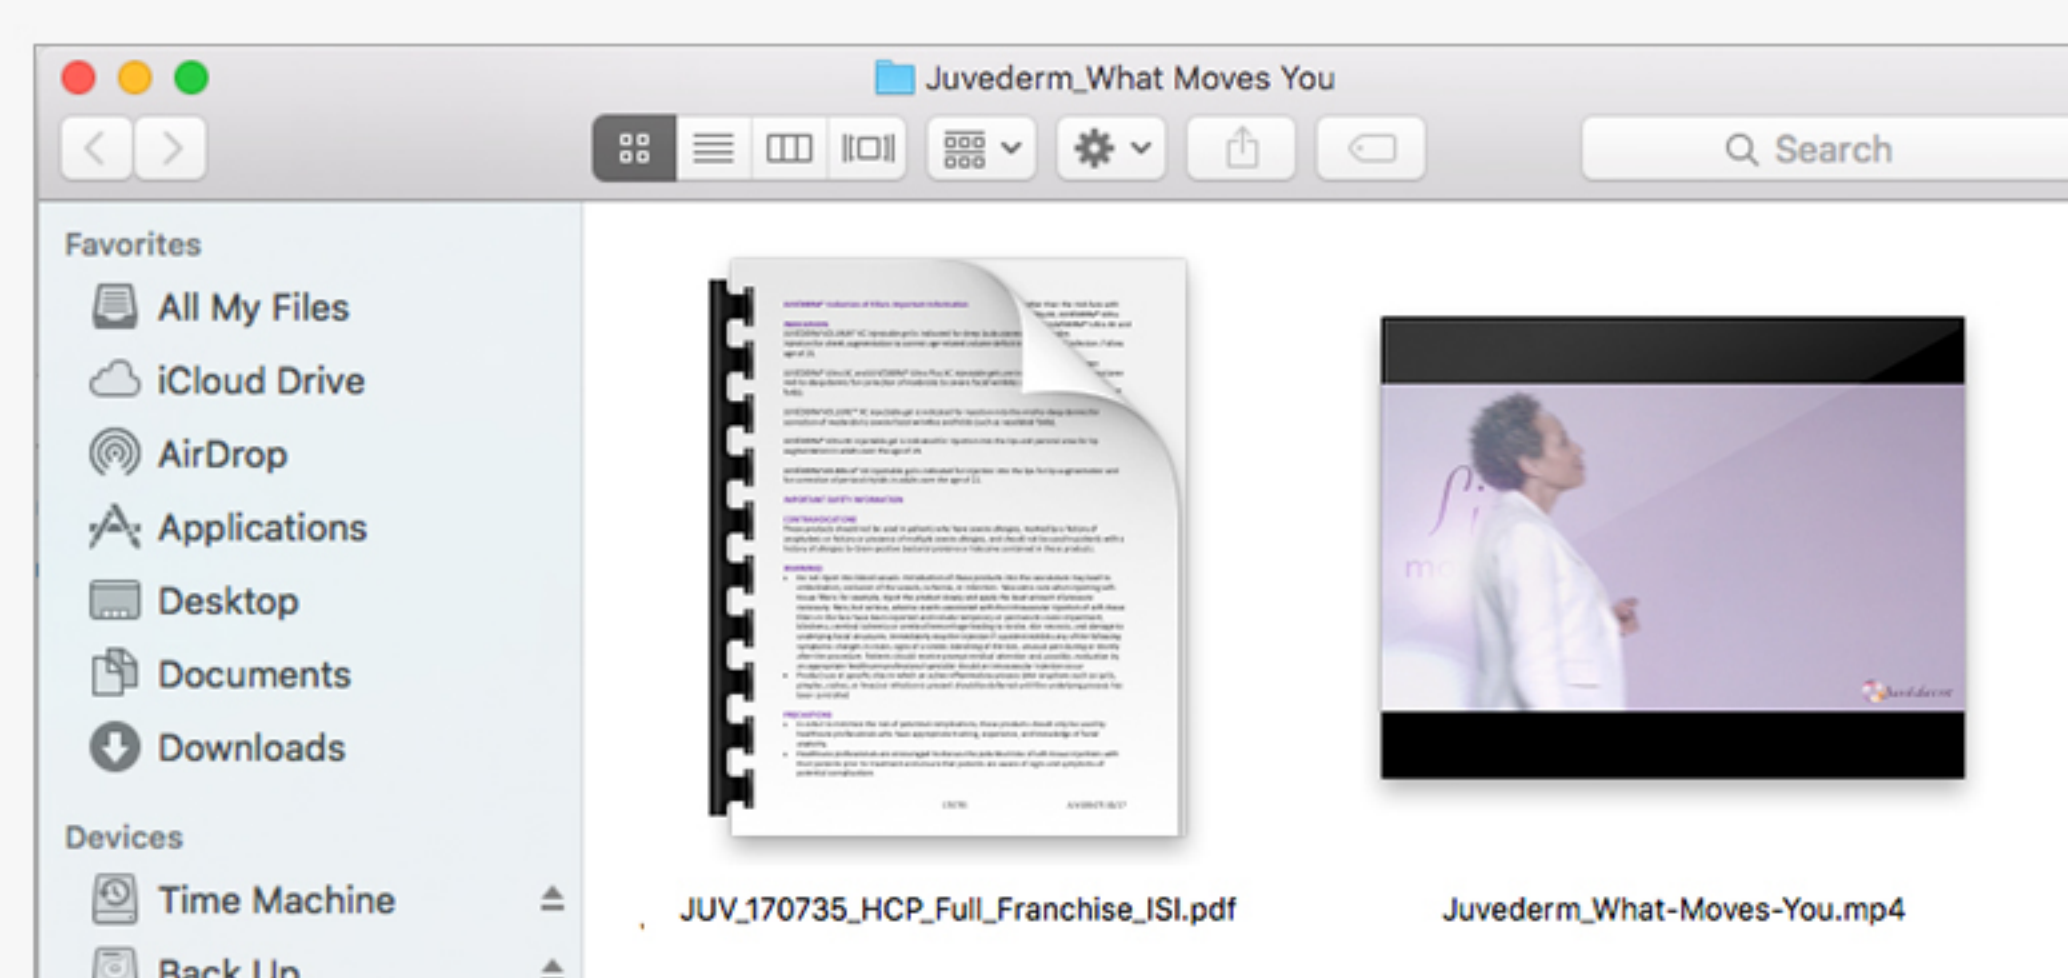

Mac

PC

STEP 3: Inside your downloaded folder you will find an **mp4** video file and accompanying documents (**PDF**), such as Approved Uses and Important Safety Information. **Please read these documents before use!**

STEP 4: To play your video, open it in your **media player** of choice:

- **VLC®**
 - File > Open file
 - To loop: Playback > Repeat One (Mac) or click the loop icon in the play bar (PC)
- **QuickTime®**
 - File > Open file
 - To loop: View > Loop
- **Microsoft Windows® Media Player**
 - Open Windows Media Player, press your ALT key, then select File > Open
 - To loop: Right-click anywhere on the video, then select “Repeat” in the menu
- **Full screen** (works for all media players): Double-click anywhere on the video itself, press “Play” and move your mouse to the outside edge of the screen

If you are using an outside vendor service, please follow their instructions on how to upload and play.
